

KRITTIKA BISWAS

Kolkata, India | +91 8240941783 | richebiswas@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

B.Tech Computer Science & Engineering (AI) student with a strong foundation in Python, Java, and core CS fundamentals (DSA, DBMS, OS, Computer Networks). Hands-on experience building web applications with JavaScript, React, Node.js, Express.js, SQL, and REST APIs. Seeking a Python/software development internship to apply and grow software engineering skills.

EDUCATION

Techno India University — B.Tech, Computer Science & Engineering (AI),
Minor: CS

Expected 2027

Kolkata, India | CGPA: 7.6/10

TECHNICAL SKILLS

Languages: Python, Java, JavaScript (ES6+), SQL, C

Core CS Fundamentals: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks

Frontend: React, HTML5, CSS3, Responsive Web Design

Backend: Node.js, Express.js, REST APIs, Firebase Authentication

Tools: Git, GitHub, VS Code

PROJECTS

Peenie — Skincare & Makeup E-Commerce Platform

Mar 2026 – Present

React.js, Node.js, Express.js, Prisma, SQLite, Firebase

- Built a full-stack platform (React, Node.js, Express, Prisma, SQLite) for browsing and purchasing beauty products, with cart and order management and Firebase authentication.
- Designed personalized skincare routine tracking with milestone progress photos and a rewards system to drive user consistency.

Glow Sales — Beauty Commerce Intelligence Dashboard

Apr 2026

JavaScript, Data Visualization

- Built an interactive dashboard visualizing FY2024 revenue, order volume, and unit sales across categories, regions, and channels.
- Implemented slicer-based filtering across regions, product categories, and time periods for trend comparison.

Space Invaders Clone — Python Arcade Game

Live

Python, Pygame, NumPy | GitHub: github.com/richebiswas | Demo: youtu.be/_DeU6M7n_oI

- Built a full arcade game with 3 enemy types, boss battles every 5 levels with rotating attack patterns, and 7 power-ups, using object-oriented Python and Pygame.
- Implemented persistent save/load, a top-10 high score system, and particle-based visual effects and audio.

TRAINING & SIMULATIONS

Deloitte Australia x Forage — Data Analytics Job Simulation

Apr 2026

- Cleaned and unified multi-format manufacturing telemetry; built a Tableau dashboard across 4 factories and 9 machine types.
- Conducted forensic web-log analysis for a suspected data breach and delivered a formal security findings report.

IBM SkillsBuild x Techno India University — Data Analytics Program

Sep – Nov 2025

- One of 300 students selected via a college entrance exam to receive a data analytics program delivered directly by IBM employees, in collaboration with Techno India University.
- Conducted EDA on 8,000+ Netflix records using Python, Pandas, and Jupyter Notebook to identify content trends across 90+ countries.

HACKATHONS

Smart Campus Hackathon — Team CARAXES

Apr 2026

Computer Science Technology Club (CSTC), South Asian University

- Participated in a 2-day hackathon developing smart campus solutions.

CERTIFICATIONS

- Machine Learning with Python — IBM SkillsBuild, via simulation (Jan 2026)
- Responsive Web Design — freeCodeCamp (Aug 2025)
